

EuroSafe Imaging poster exhibition officially opens

ESR President, Prof. Guy Frija, officially opened the EuroSafe Imaging poster exhibition yesterday, Friday March 7. Flanked by members of the EuroSafe Steering Committee, Prof. Frija reiterated the ESR's commitment to a holistic approach to radiation protection and to quality and safety in medical imaging. As such an approach necessitates close collaboration between a variety of stakeholders, Prof. Frija thanked all involved organisations and individuals for their contributions and commitment to the EuroSafe Imaging campaign. The exhibition opening was attended by distinguished representatives from the ESR, IAEA, WHO, European Commission, HERCA, MELODI, EFRS, ESPR, EFOMP, European Patients Forum, COCIR, and many more.

Located in the M building, the exhibition contains more than 40 posters detailing the radiation protection efforts of a variety of organisations across a number of European countries. If you like what you see in the exhibition, why not join the campaign yourself? Organisations and individuals can sign up to become Friends of EuroSafe Imaging at www.eurosafeimaging.org
