German Röntgen Congress 2018

Radiology connects is the motto for the 99th German Röntgen Congress, which will take place from May 9–12, 2018 in Leipzig, Germany.

The motto for the congress is ‘Radiology connects’, and it will focus on the networking and integrating function of radiology in relation to connecting diagnostic and therapeutic knowledge, as well as equipping healthcare professionals with the necessary knowledge and skills to provide the best care possible.

The German Röntgen Congress and its digital predecessor are events that bring together professionals from the fields of radiology and related disciplines, with the aim to advance knowledge and best practices in medical imaging and diagnosis.

The congress will focus on a wide range of topics, including:

- Neuroradiology: diagnostics and therapy
- Interventional radiology: techniques and applications
- Cardiovascular imaging: state-of-the-art technologies
- Oncological imaging: diagnostic and therapeutic strategies
- Imaging informatics: data management and analysis techniques
- Imaging education: bridging the gap between research and practice

Financial support is provided by initiatives worldwide. The 99th German Röntgen Congress is organized by the German Röntgen Society, the German Society of Radiology, and the German Society of Nuclear Medicine.

Join us at the conference to learn more about the latest developments in radiology and network with professionals from around the world. Register now and make sure to attend the opening ceremony on Thursday, May 9, at 9:30 AM at the Kanzleramt in Leipzig.

See you in Leipzig, Germany!
