

EU JUST CT 

Next steps of the EU-JUST-CT Project

Alexandra Karoussou-Schreiner
Project Co-Lead
Ministry of Health. Luxembourg

Workshop proceedings & final report

- Prepare the **workshop proceedings** capturing all the **valuable feedback and input** received during the productive two days here in Luxembourg
- Will be published on the project website following relevant review and approval procedures
→ attendees will be notified once publicly available
- Preparation of the **final report** by end November
 - Finalised analysis of the audits
 - Finalised guidance document

Publication

- Following EC approval of the final report including the final analysis of the audits, a publication in the **Radiation Protection series** is envisaged, consisting of
 - Part 1: Executive Summary, Final Analysis Report of the Audits, final methodology, link to workshop proceedings
 - Part 2: Final Guidance Document to assist radiology departments in improving justification
- Publication of results in **peer-reviewed journals** in alignment with all involved players

Dissemination, follow-up actions

- Dissemination efforts will continue post project to ensure impact and sustainability
- Involvement in/contribution to follow-up actions under the SAMIRA framework as appropriate (e.g. clinical audit)

Thank you for your attention!
